

BELARUS SBPP

8MM UNMOLASSED

TYPICAL ANALYSIS

Moisture	10-12%
Sucrose content	7-9%
Crude Fibre	17-19%
Crude Ash	5-7%

By- Product from the production of raw juice and made of dried pressed sugar beet pulp.

When stored cool and dry (max. 75% relative humidity) at least 12 months. For all ruminants; conditionally for horses and breeding sows. In the case of horses, sugar beet dry pellets must be soaked with plenty of water prior to feeding.

Delivery form: Bulk Pellet diameter: 8-9mm (produced on 8mm pelletizing dies).
Shipment: Via bulk vessel or container (both bulk and bulk bags).
